PROFILE

I'm Sahil Thapa, an IT student deeply passionate about crafting modern, scalable web applications. My journey started with curiosity and grew into full-stack development. I build modern, user-friendly web applications. I specialize in PHP, Laravel, MySQL, JavaScript and REST APIs — turning ideas into scalable digital products.

PROJECTS

Mero Bazar (Multi Vendor Management System)

On Development process a Multi Vendor Managemnt System platform where multiple seller manage products, orders, send email notification and Admin dashboard using Tailwind CSS, Filament , Laravel 13, MySQL. A User dashboard to browse , add to cart , order and order history using Laravel Breeze.

Sportifigear (E-commerce Website)

Fully functional CMS shopping platform system with product catalog, cart management, order processing, payment integration and Admin Dashboard using HTML, CSS , Tailwind CSS , Laravel 12 , MySQL and Filament.

Himalayan

Simple functional Tour and Travelling Package Management System with tours packages and book trip using HTML, CSS , Bootstrap, Laravel 12.

Todo List
